
Professional Summary

Highly motivated and results-oriented Cloud & DevOps Architect with extensive experience in designing, implementing, and managing robust and scalable infrastructure on AWS, Azure, and GCP. Proven ability to automate deployments, optimize costs, and ensure security and compliance using tools like Terraform, Ansible, Kubernetes, and CI/CD pipelines. Expertise in GitHub automation and infrastructure as code (IaC) best practices. Seeking a challenging role to leverage my skills and contribute to the success of a dynamic organization.

Core Competencies

AWS	Azure	GCP
Terraform	Terraform & IaC Specialist	Ansible
Kubernetes	CI/CD	CI/CD Pipelines

Professional Experience

Technical Skills

AWS	Azure	GCP	Ansible	Kubernetes	CI/CD
Terraform	Terraform & IaC Specialist		CI/CD Pipelines		
			Cloud & DevOps Architect		
Cloud Security & Compliance			Helm	ArgoCD	Consul
Cost Optimization	GitHub Actions		HashiCorp Vault	Packer
