
Professional Summary

Highly accomplished and results-driven Cloud and DevOps Architect with extensive experience designing, implementing, and managing scalable and secure cloud architectures on AWS. Proven ability to lead cloud modernization efforts, automate infrastructure provisioning and governance, and optimize cloud cost management. Expertise in leveraging Infrastructure-as-Code (IaC) tools like Terraform, configuration management platforms like Ansible, and container orchestration technologies like Kubernetes. Strong understanding of DevOps principles and cloud security best practices. Seeking to contribute expertise in AWS architecture to ASCENDING Inc.'s fast-paced, innovative environment.

Core Competencies

AWS	Terraform	Kubernetes
Cloud Security	CI/CD	Ansible
Cost Optimization	DevOps	Cloud Governance

Professional Experience

Sr. Cloud SME, FedSoft, Inc |

Led cloud modernization initiatives, automating infrastructure provisioning and governance using Terraform and AWS. Designed and implemented scalable, multi-cloud architectures incorporating Kubernetes. Developed reusable Terraform modules, enforcing best practices and compliance. Implemented automated security controls using HashiCorp Vault and AWS IAM, optimizing cloud cost management.

Infra Architect, Clover |

Led the design and deployment of scalable and secure cloud infrastructure on AWS using Terraform. Architected Kubernetes-based container platforms and integrated cost optimization strategies. Implemented DevSecOps practices and drove compliance efforts for SOC 2, PCI DSS, and ISO 27001.

Chief Solutions Architect, HappyPathway |

Architected self-service infrastructure using Terraform and Ansible. Designed and deployed cloud-agnostic Kubernetes solutions. Led migrations to AWS, reducing cloud costs and improving compliance with SOC 2 and ISO 27001. Implemented DevSecOps practices.

Sr. Site Reliability Engineer, AppDynamics |

Designed and automated deployment pipelines on AWS. Spearheaded the development of an automated AWS AMI pipeline. Integrated Consul for centralized configuration management with Terraform. Established a Jenkins-driven CI/CD process.

DevOps Engineer, RetailNext I

Architected and automated AWS infrastructure using IaC. Developed a scalable continuous deployment pipeline and implemented a real-time monitoring framework. Integrated cloud security best practices.
